with the organizational units/sites as listed in the annex

has implemented and maintains a **Quality Management System**.

Scope:

The sales of electronic parts (resistors, inductor modules, condensers, electronic components), and equipments, attachments. The sales of purchased commodities (resistor networks, pt sensors, line filters, DC fans, EMI filters, transformers, delay lines).

Corporate scope:

The design, manufacture and sales of surface mounting thin film electronic components (resistor / inductor), surface mount type metal thin film discrete resistors and related components (chip resistors, attenuators, chip resistor networks, impedance converters, dividers), and metal foil type chip resistors.

The purchase and sales of electronic components.

Through an audit, documented in a report, it was verified that the management system fulfills the requirements of the following standard:

ISO 9001 : 2015
